The coverage of buildings on each site must not exceed 60 percent of the site area.

The ratio of floor area to site area must not exceed 0.6:1.

For land with a boundary with a residential zone the coverage of buildings on each site must not exceed 47 percent of the site area and the ratio of floor area to site area must not exceed 0.47:1.

Application requirements

An application to construct a building or construct or carry out works must be accompanied by the following information, as appropriate:

- A plan drawn to scale which shows:
- The boundaries and dimensions of the site.
- Adjoining roads.
- Relevant ground levels.
