For the purpose of this Clause, the ‘Central Highlands region’ comprises the municipal areas of Ararat, Ballarat, Golden Plains, Hepburn, Moorabool and Pyrenees, covered in the Central Highlands Regional Growth Plan (Victorian Government, 2014).

Policy guidelines

In considering the policy objectives and strategies for the Central Highlands region, planning must consider as relevant, the Central Highlands Regional Growth Plan (Victorian Government, 2014).

Planning for growth

Objective

To plan for population growth in sustainable locations throughout the region.

Strategies

Support Ballarat as the main centre for regional growth, services and employment with major growth focussed to the west.

Maintain Ballarat’s Central Business District as the primary focus for commercial, retail and service activity in the city and region.

Support urban consolidation, particularly in Ballarat’s Central Business District.

Support the development of Ararat and Bacchus Marsh as the key service centre for each end of the region and provide adequate land and infrastructure in appropriate locations to support anticipated population growth.

Provide local and sub-regional services at Avoca, Ballan, Beaufort, Clunes, Creswick, Daylesford and Smythesdale to support ongoing growth, particularly closer to Melbourne and Ballarat where towns will provide a key opportunity to target growth pressure.

Minimise the outward growth of Daylesford due to environmental assets and natural hazards.

A diversified economy

Objective

To strengthen the region’s economy so that it is more diversified and resilient.

Strategies

Support greater economic self-sufficiency for the region.

Facilitate economic development opportunities based on the emerging and existing strengths of the region.

Support growth through the development of employment opportunities in towns identified for population growth.
Support the growth of key regional employment assets including the Ballarat Technology Park, Ballarat Central Business District and Ballarat West Employment Zone.

Recognise the need for new employment opportunities in Ballarat’s peri-urban settlements to promote sustainable growth.

Support development of the region’s tourism sector and build on iconic tourism precincts as regional drawcards.

Provide and protect buffer areas for industry from the encroachment of sensitive uses.

11.08-3 Regional links

Objective

To capitalise on the region’s close links with other regions and cities.

Strategies

Facilitate integrated planning for freight and passenger transport with land use directions and growth opportunities.

Support ongoing improvements to transport infrastructure to enhance access to Ballarat and other major centres.

Support settlement and economic growth along existing transport infrastructure to maximise use of the network.

11.08-4 Sustainable communities

Objective

To create sustainable and vibrant communities supported by enhanced access to key services.

Strategies

Recognise and respond to variable rates of growth and population change expected across the region.

Plan for growth by directing it to well serviced settlements with good access to Melbourne or Ballarat, particularly Bacchus Marsh, Ballan, Creswick, Clunes, Beaufort and Smythesdale.

Provide appropriate infrastructure in towns experiencing rapid population increases.

11.08-5 A sustainable region

Objective

To make the region more self-reliant and sustainable.
Strategies

Support the productive use of energy, water, waste materials, agricultural and natural resource assets.

Facilitate opportunities to enhance water supply and increase energy security.

Create communities that offer local jobs and services.

Integrated planning

Objective

To integrate planning for growth with the provision of infrastructure.

Strategies

Support the provision of infrastructure with planned growth.

Support infrastructure investment where it will support business investment, including Stage 1 of the Ballarat Western Link Road which will improve access to the Ballarat West Employment Zone.

Support expansion of energy supply infrastructure to facilitate the establishment of new industry or the expansion of existing industry.

Environmental assets

Objective

To manage, protect and enhance the region’s land, soil, water and biodiversity.

Strategies

Improve environmental outcomes and support economic development by capitalising on the region’s environmental assets.

Minimise impacts from development on water catchments.

Agricultural productivity

Objective

To support long-term agricultural productivity.

Strategies

Support change and transition to maintain the viability and productivity of agricultural land.

Support rural economies to grow and diversify and protect key agricultural assets from incompatible uses.
Support the ongoing viability of agriculture by identifying land for primary production and agriculture, including intensive agriculture.

11.08-9 Cultural heritage and landscapes

Objective

To recognise the importance of cultural heritage and landscapes as economic and community assets.

Strategies

Protect cultural heritage assets that are important for attracting tourists to the region.

Provide clear urban boundaries and maintain distinctive breaks and open rural landscapes between settlements.

Maintain a clear settlement break between metropolitan Melbourne and the Central Highlands.
